## Chart Patterns

### Funnel, focal planet Moon

You have the planetary pattern type called the 'funnel' shape (also known as the 'bucket'). All your planets form a group, with the exception of the focal point, one planet or two planets in conjunction (bucket handle). Your energies tend to be channeled through this focus. You will have abilities in the occupied area of the chart, and goals in the direction of the focal point. The focal planet(s) symbolizes how your energies will be expressed, and where you seek to have your needs met or achieve your purpose.

The Moon in Pisces gives a sweet and gentle nature. You are visionary and poetic, and very sensitive to spiritual values. You are compassionate and empathetic with other people. You may be something of a dreamer,

and you may feel the need to escape at times, for the real world seems too cruel and unkind. You have great sympathy for the down-trodden and disadvantaged. You may experience some suffering through your emotions, especially if your inner needs are not being met. You also have a tendency to be easily swayed by others. It is very important that you be true to yourself, and to your inner process of striving toward spiritual understanding and the gift of sympathy toward your fellow-beings.

The Moon in the Sixth House represents an emotional sensitivity with respect to issues with service to yourself and others in the world. You are very conscientious and concerned with how best to serve yourself and other people. You perceive the chaos in the world, both your inner and outer world, as a reflection of an inability to perfect your own emotional processing. You can be nervous or high-strung. You are likely to be over-sensitive about how you express yourself emotionally. You may feel a need to control your emotions with caution although you are adaptable to your environment. You are very aware of your need to be of service to others. You work hard and you can be demanding and critical of yourself. You may also expect others to work as hard as you. You will be better able to serve yourself and other people when you learn to come to terms with your sensitivity and begin to feel secure with your own emotions.

## T-Square, focal planet Neptune

You have a T-Square in your chart. With this planetary aspect pattern, in which three planets or conjunctions are in square with one another, you have a high degree of motivation and drive. Your energies are most easily and habitually expressed by the energy of the focal point, the middle of the T-Square. You may also compensate for overdoing in the area of life represented by the focal point, by leaning toward the empty pattern element opposite the focal point, seeking to balance your activity. The lesson of this planetary aspect pattern is in learning to use your considerable energy wisely in the pursuit of your true goals. There is great tension represented by the focal planet or planets in your chart, where conflicting parts of your personality attain their focus and peak of energy, and you may observe compulsive behavior in the area of life represented here.

Neptune in the Third House (or sign) gives a clever personality with subtle charm. You are witty and poetic. You are fond of higher education, but you tend to be a dreamer and may miss out on serious study because of it. You see the world through the mystical third eye, rather than the usual binocular setup that allows most people to get along. Because of your extraordinary visionary viewpoint you may see more than others and also miss out on some of the mundane details. You may suffer some confusion regarding communication received, or perhaps where

close relatives are concerned, or have feelings of insecurity stemming from your early years, that carries over into adult life. You can be indecisive and worrisome but you are also broad-minded and mentally creative. It benefits you to learn to focus your considerable creative potential, and to let yourself become a channel for higher forms of thought to flow into your own life, and through you into the world around you.

The following applies to your generation as a whole as well as to you personally:

Neptune in Sagittarius (or the ninth house) gives an impressionable, idealistic and very intuitive personality. You are inclined to the mystical, and are high-minded, seeing life in terms of visionary and poetic feelings rather than in practical terms. You are capable of great belief in the unknown and unproven. You are inclined to scholarly pursuits, but may feel a lack of motivation or vagueness with respect to educational goals. You also have a strong desire to explore and travel, to try novel ideas and experiment with new ways of doing things. You may be attracted to spiritual studies, or psychedelics, as a way to achieve a transcendent state of mystical union with all creation. Your challenge lies in relying on your considerable inner vision to unfold your own unique pathway, to make concrete and real your flights of consciousness to other realms, and bring this vision back with you into society at large.

## T-Square, focal planet Jupiter

You have a T-Square in your chart. With this planetary aspect pattern, in which three planets or conjunctions are in square with one another, you have a high degree of motivation and drive. Your energies are most easily and habitually expressed by the energy of the focal point, the middle of the T-Square. You may also compensate for overdoing in the area of life represented by the focal point, by leaning toward the empty pattern element opposite the focal point, seeking to balance your activity. The lesson of this planetary aspect pattern is in learning to use your considerable energy wisely in the pursuit of your true goals. There is great tension represented by the focal planet or planets in your chart, where conflicting parts of your personality attain their focus and peak of energy, and you may observe compulsive behavior in the area of life represented here.

Jupiter in the Tenth House (or sign) gives you a serious and conscientious personality. You are also very practical and have a talent for working with the public. You tend to be extremely careful with money, making a good manager, and have a strong drive to achieve success. You may be perhaps somewhat miserly with the gift of your affection. You can also be fearful of risking the fruits of your achievement, definitely not a risk-taker. You may refrain from taking chances that would in fact succeed. Although you have good prospects in life, your opportunities usually

come from hard work and dedication. Tradition plays a large part in molding your ideals. You are noble and honorable in your connection with society around you, and enjoy being known as a good role model for others to follow.

Jupiter in Leo (or the fifth house) gives you a generous personality with good vitality. You have dignity, pride and dramatic presence, and are courageous in your sense of self. You are likely to be a loyal companion. You possess excellent executive abilities. You like to show off your good side, and have a natural flair and sense of showmanship that carries you far in life. You enjoy the limelight, and would always rather shine out on a hillside than hide your light under a barrel. You are attracted to higher learning, and the fine arts, including the theater, and may try your hand at acting. You can also be extravagant at times, or suffer from errors in judgment. You may tend to overdo, and need to beware of egotism. You have good intuition; you make a capable leader when you follow your own inner guidelines.

## Important Features

### Uranus in Scorpio (13° Sco 38') Uranus in the Second House

Uranus in the Second House (or sign) gives an individual who is likely to be concerned with changing his or her physical environment. You

have a unique value system, and you may "march to the tune of a different drummer" or choose to experiment with different lifestyles. You have a tremendous drive for independence, and you don't like to work for other people, so that you may be motivated to start your own business. You also may be involved with New Age business ventures, or those involving modern communications, such as Internet resources. You have a unique way of looking at the world, and of finding your own way to its abundance. You may have possessions that you value at one point in your life, but this can change rather suddenly, and you may have to start over. Your income can also fluctuate. You can appear selfish at times to other people, or you may be something of a crusader. You benefit from getting in touch with what you truly value, as opposed to what conventionality dictates. Then your efforts will allow new resources to evolve in your life and your consciousness, and lead to the greater good of society.

The following applies to your generation as a whole as well as to you personally:

Uranus in Scorpio (or the eighth house) gives an individual who is willful and possesses great depth of passion. You have a keen intuition and immense power to transform yourself and your personal relationships as you evolve. You may be fascinated with sexuality, or issues of death and rebirth, and you can also be quite psychic. The search for depth connection with the divine in you and in

others is intriguing and you may delve deeply into occult studies. You are likely to have an unconventional approach where sexual matters are concerned. You may also be challenged in interpersonal relationships. You may experience loss throughout your life due to the sudden departure or unexpected death of a loved one. Such trials can serve a deeper purpose in your life, since transformation is a necessary step for you in the area of intimacy. The application of will and the ability to look inside yourself for your own unique answers may bring about a better understanding of the deeper relations between self and other.

### Sun in Virgo (22° Vir 23' 40") Sun in the Twelfth House Angular planet - conjunct Ascendant

The Sun represents your will and purpose, your sense of vitality, and your evolving higher Self. In Virgo it is Mutable-Earth, and rules the digestive system. Your ruling planet is Mercury and also the asteroids. Virgo people tend to be very conscious of details. You may also appear nervous or obsess over health issues. You are likely to be neat and orderly, at least in some area of your life, although you may exhibit the opposite tendency in cases where you have not yet found your guiding principle of organization. You love work, service to others and the gathering of the fruits of the material world, as symbolized by the harvest. You are also likely to be an good conversationalist, with

wide-ranging knowledge and interesting ideas. You can be analytical and perhaps overly fond of detail, with perfectionist tendencies, and you may miss out on the big picture by concentrating on the micro. It also benefits you to learn the fine line between discrimination and criticism. Your mission in life is the purification your activity in pursuit of your goals, manifesting your inherent love of excellence in all strivings

The Sun in Twelfth House represents a concentration of the vital force to be one with the unifying forces of cosmic awareness. You are intuitively aware that you are within the source of creation. You likely identify yourself with formlessness, being more attracted to awareness itself than to any particular concrete form within it. You sense that you are more than merely a body with feelings, emotions, and thoughts. You may in fact reject your own boundaries because you cannot identify with any self as being separate from the universal cosmic self, or God(dess). Conversely, you may be frustrated and feel alienated from the source, and may have a tendency to seek out substitute highs in an effort to achieve the sense of oneness you know to be true. Due to your lack of personal boundaries you are quite sensitive to the collective unconscious as an interior realm of perception. You perceive reality as forms of creation and therefore are naturally inclined to the artistic, poetic, or musical. Your sensitivity can create a need for you to periodically withdraw in order to cleanse

yourself of psychic debris you've pick up in the outside world. You benefit from such retreats in order to come back to yourself, and create positive boundaries of selfhood that allow you to re-enter the collective awareness with clarity and fresh perceptions that can stimulate others to clarify their own purpose for themselves as well.

## Angular Planets

### Sun, Moon, Rising Sign Features

#### Libra Rising

*The Rising Sign is the mask shown to others, also the physical appearance.*

People with Libra Rising are gracious, attractive and fair-minded. You are a seeker of harmony and beauty. Your ruling planet is Venus, and you are known for your good taste, elegance and charm. Libra is the sign of balance and relationship. The sun in Libra is at the equinox, when day equals night, and similarly Libra strives for harmony between polarizations. Your natural mode of living is in partnership with others. Intimate relationships are quite important to you, as are issues of social justice. You forever hope that all parties to a conflict will be satisfied, and you have a tendency to understand and support both sides of a dispute, which is likely to drive your friends crazy. You will also go out of your way to avoid a quarrel, and you

may have a hard time making a decision. An excellent outlet for your love of beauty is in artistic pursuits of all kinds. You benefit from strengthening your will to act in favor of your higher purpose, which lies ultimately in dedicating yourself to humanity.

### Jupiter in strong sextile (within 0.9 degrees) with Ascendant Leading planet of planetary pattern

*The planetary energies flow together, open into new possibilities, new connections.*

This aspect gives an optimistic and self-aware individual, with high ideals and good vitality. You are spiritually motivated, and possess a quiet strength which is invariably helpful to others and which takes you far in the world. Honors and material success usually accompany you. You may have a tendency for being overly optimistic, but in general you have good executive abilities. You have generally simple tastes, but your enthusiasm for life may give your waistline a tendency to expand. You are attracted to higher learning and the fine arts, and you are a courageous and loyal friend. Good fortune follows you through life.

### Moon in inconjunct (within 3.5 degrees) with Ascendant Focal planet of planetary pattern

*The planetary energies do not flow smoothly, one or the other predominates; discrimination must be employed.*

This aspect between the Moon and Ascendant gives a nurturing and protective personality. You are subtle in your actions, rather than direct, and are likely to reflect the moods of those around you. Your sense of security and your home are important to you. You have a habit of moodiness, with your emotions frequently changing, and this can create problems in relating to others. You may feel at a loss to connect with others, not being sure of how they really feel towards you, and yet secretly desiring emotional contact with them. You also tend to act instinctively, rather than after reasoning out the situation. You can therefore benefit from shedding the light of conscious reason on your habitual patterns, and working toward greater focus on your true goals.

### Neptune in quintile (within 0.9 degrees) with Ascendant

*The planetary energies are positively linked, subtle, and spiritual in dimension.*

This aspect gives a sensitive and creative individual. You are somewhat unworldly, and are likely to be artistic or musical. You are softhearted, and you may be perhaps even too willing to sacrifice yourself for the good of others. You may also be open to mysticism or the exploration of other dimensions through psychic perceptions. Your aim is to

achieve a balance between spiritual dimensions of reality and ordinary life.

## Chiron in bi-quintile (within 0.5 degrees) with Ascendant

*The planetary energies are positively linked, subtle, and spiritual in dimension.*

With this aspect between Chiron and the Ascendant in your chart you are likely to experience painful realizations throughout your own life and have the ability to heal others as well. Chiron is called "the wounded healer" because it represents the archetype of imperfection and loss which when integrated leads to compassion and understanding of others' suffering. The empathy and the understanding that are gained through life's trials provide the ability to serve as a helper and a healer for others. You are more invested in this archetype than most, since Chiron is in a powerful connection with your rising point, symbolizing the self that you present to the world, esoterically your true self. You have probably experienced pain and frustration related to your self-concept, or there could have been trauma in your early years concerning parental protection which may have been withdrawn too suddenly or misapplied, or perhaps similar issues with your peers. These early experiences may have made it hard to accept the love of others in your adult life. It is good to make the effort to connect yourself consciously with any painful events that may

be buried in your unconscious, so that these will no longer have so much power over you. Since you have a great deal compassion and empathy for others you are likely to be someone with career possibilities in the helping professions. You may strongly desire to help other people, and yet be unable to give them the full benefit of your higher self. It is good to integrate your past experiences, no matter how painful they may have been, and no matter how painful these feelings continue to be for you in adult life. When you have made a solid transition from existing in a divided state to a more balanced and integrated whole, you can be of much more actual service to other people, since you are more available to yourself.

## Sun in weak conjunction (within 10.4 degrees) with Ascendant

*The strongest blend of the energies represented by these two planets.*

The conjunction between the Sun and Ascendant gives a strong-willed and generous personality. You are dramatic and assertive, also creative, self-confident and perhaps a bit self-indulgent. Like Leo rising people you expect to be the center of attention, and often are. You also have great energy, courage and honesty and are very proud. You are likely to be a natural leader. Your challenge is to become more aware of yourself; to refrain from arrogance and egotism, and rather to develop humility and

compassion, and to learn detachment in the gift of your affections.

### Sun in semi-square (within 0.2 degrees) with Venus Ruler of rising sign

*The planetary energies conflict in determined subtle tension; calmness is required.*

This aspect gives an excitable and emotional personality, with cheerfulness and warm affections. There is usually artistic ability indicated, perhaps in music and dance, as well as a love of refined surroundings. You may appear flighty in your attitudes and your emotions. You are graceful and charming, and are likely to be well-liked.

### Sun in septile (within 0.9 degrees) with Jupiter Leading planet of planetary pattern

*The planetary energies darkly interact; incline to occult dimensions apart from socially accepted norms.*

This aspect gives an optimistic and high spirited individual. You are likely to be fortunate in your material surroundings. You are convivial and lively, and generous with your money and your affections. There may be a tendency to overdo things, or to expand the waistline. You are attracted to higher learning and the fine arts, and are courageous and loyal, but you can be extravagant and

suffer from errors in judgment. You should also beware of too much egotism.

### Sun in sextile (within 8.8 degrees) with Uranus

*The planetary energies flow together, open into new possibilities, new connections.*

This aspect gives an independent and strong-willed individual. You can be determined to get your own way, and love freedom from conventionality. You like to start new projects, or make major changes in your life, but without completely eliminating previous foundations. You may feel conflicts with the norm. Because you are unpredictable at times, it can be hard for others to be comfortable with you. You are an original and independent thinker with an active, scientific mind, futuristic in outlook, and are capable of bringing new ideas into being. You may have issues with commitment and responsibility. Your task is to fully express your visionary impulses in order to make these more concretely available in your own life, and in the life of society around you.

### Sun in square (within 6.8 degrees) with Neptune

*The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.*

This aspect gives a highly sensitive, visionary and creative individual. You are probably

somewhat unworldly, possessing an ethereal quality, a marked remoteness from ordinary reality. You are likely to be artistic or musical. You are the softhearted type, and you may be too willing to sacrifice yourself for the good of others. You may also be dissatisfied with your work activities, or life in general, leading to the habit of evading decisions, or to other forms of escapism. In feeling unfree to assert yourself, you may engage in self-deceptive illusions, or even the use of drugs. You also may have issues with deceptions practiced on you by other people. In order to develop a clearer sense of self, accurate feedback from other people is crucial, so that to avoid these traps, you should strive for utmost honesty in your dealings with others. The otherworldly energy of Neptune must be used wisely. When the proper outlet is found, tremendous creativity is possible, perhaps manifested through artistic channels: music, drama, poetry. Your lesson in all this is to achieve a balance between the spiritual dimension of reality and ordinary life.

### Sun in sesquiquadrate (within 1.9 degrees) with Chiron

*The planetary energies conflict in determined subtle tension; control is required.*

With this aspect between Sun and Chiron there are indications that you may experience painful realizations throughout your own life and that you also have the ability to heal others as well. Chiron is called "the wounded

healer" because it represents the archetype of imperfection and loss which when integrated leads to compassion and understanding of others' suffering. The empathy and the understanding that are gained through life's trials provide the ability to serve as a helper and a healer for others. Since you have come through the fires of difficulty you are likely to be someone with career possibilities in the helping professions. It is often easier to face others' troubles than one's own, and you may even be more ready and available to help others than to help yourself. It is good to integrate your past experiences, no matter how painful they may have been, and no matter how painful these feelings continue to be for you in adult life. Then you will be in a position to truly sympathize with others' suffering and help them to work out their traumas as well.

### Moon in strong opposition (within 3.3 degrees) with Mercury Ruler of sun sign - sun's ruler

*The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.*

This aspect gives a brilliant mind with a sharp tongue and a witty personality. You are an independent thinker. You can be sensitive at times, and you may find yourself overly concerned with health issues. You may appear to have the attitude of the reformer toward your fellow man, because you have a

tendency to let your emotions run away with your thoughts. You should also beware of a tendency to indulge in gossip at times, or to speak disparagingly of other people. However you make a loyal ally and will fly to the defense of a friend.

### Moon in strong trine (within 0.9 degrees) with Venus Ruler of rising sign

*The planetary energies flow smoothly; the connection is easy and beneficial.*

This aspect gives a calm and steady emotional nature, with a refined and artistic sensibility. You are habitually cheerful and are likely to be happiest in your home and family. You possess a great deal of personal charm, and also have a love for the arts, especially music and dance. You are courteous and popular, and supportive to your friends. It is important for you that your home environment be aesthetically pleasing.

### Moon in strong opposition (within 0.1 degrees) with Saturn

*The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.*

You may appear to be rigid, rather letting your emotions flow freely. This aspect gives a deepening and concentrating, or a blockage in the expression of your feelings. You may be extremely sensitive. You may have had

problems with the parental care and guidance you received as a child, or you may be fixated on one parent, especially your mother. There may be a sense of over-identification with mother, or possibly an unconscious rejection of her influence. You may have experienced her as rejecting or uncaring -- and this attitude may spill over to the significant women in your life. You may experience difficulties in your relationship to the feminine. In a woman's chart there could be a need to more fully identify with and bring into focus a concept of your own femininity. In a man's chart you may be in relationship to powerful feminine figures, symbolic of the powerful feelings that are denied full expression in your own nature. The lesson for you here is to more fully and deeply understand and value the true roots of your being, leading to a better sense of security and greater self-acceptance.

### Moon in strong sextile (within 3.0 degrees) with Chiron

*The planetary energies flow together, open into new possibilities, new connections.*

With this aspect there are difficulties indicated in relating to the feminine - either significant female presences in your life or else and including your own feminine side. This would be true, and different in its sense, in either a man's or a woman's chart. Of course the important early model for the feminine is mother, and it is likely that you

have a deep and intense relationship with your mother, which may have been productive of much wisdom. There also may be emotional scars from the very intensity of your experience together. These experiences may be so painful that they become suppressed from consciousness, buried deep in your psyche. In your adult life, it is important to move past any resentment you still feel, caused by early wounding in your relationship with the female part, or nurturing influence, of your own nature, so that you can begin to move into a more conscious and compassionate reconciliation with your walled off parts. Once you have begun to make conscious any pain and alienation you may feel surrounding events from the long-buried past, you can begin to truly help others as well as yourself. A creative side of your nature may emerge like a butterfly out of the outgrown past.

### Moon in strong trine (within 3.3 degrees) with Midheaven

*The planetary energies flow smoothly; the connection is easy and beneficial.*

This aspect gives an emotionally sensitive personality who is nurturing and caring. You may tend to be dependent on others for your own feelings of self-worth, so that it may be important to you that others look up to you. You do well in a business setting, having a dramatic presence that gives you natural abilities to influence others, and an attitude

of caring that makes you easy to get along with. You set priorities based on people rather than strictly on profits. Your career may also be quite changeable.

### Moon in trine (within 9.2 degrees) with Mars

*The planetary energies flow smoothly; the connection is easy and beneficial.*

This aspect gives a vigorous and daring personality. You are outgoing, and may also be a profound thinker. You have a practical and matter-of-fact way of going about things. You speak directly and to the point, although you may be over-sensitive to criticism. All in all, you have good control over your passions and balance well between the extremes of getting close to other people and maintaining your own sense of individuality.

### Moon in inconjunct (within 4.4 degrees) with Jupiter Leading planet of planetary pattern

*The planetary energies do not flow smoothly, one or the other predominates; discrimination must be employed.*

This aspect gives an optimistic and kindly personality. You are tolerant of others, and enjoy good company as well as good food. You are likely to be fortunate in finances, and attract material rewards without seeming to try for them. You are usually able to spend money as fast as you get it, so you don't

usually pile up riches. You should beware of a tendency to over-indulge.

## Moon in trine (within 7.3 degrees) with Uranus

*The planetary energies flow smoothly; the connection is easy and beneficial.*

This aspect gives an unique individual with an energetic personality, and with a strong sense of intuition. Novelty excites you. You like to explore new horizons. You enjoy meeting people and have an enthusiasm which is appealing. Your early home life was probably very stimulating and challenging. You may be interested in studying occult realms of thought. You are able to benefit from fundamental transformations of identity in your life, and are quick to take advantage of new opportunities. You are very original and individualistic and may have difficulties in settling down with a steady partner. You can benefit from learning to balance your needs for security with your urge for freedom and experimentation.

## The ruler of your Sun Sign is Mercury in Virgo (9° Vir 34')

*The ruler of your Sun sign is characteristic of your personality:*

Mercury in Virgo gives an analytical and practical mentality, with great powers of logic and reason. Other people find you dependable and know that they can rely on

your thought process. Your common sense is strong, and you tend to think things through. You reason well, and speak clearly and honestly, although you can also be intolerant, or may speak critically about people who do not measure up to your standards. You are at times almost too analytical, tending to see everything in terms of categories. Your attention to detail may prevent you from focusing on the larger picture. You are quick to learn but you may need to work to develop your concentration and your retention of the knowledge you have gained. It also benefits you to zoom out once in a while, and take in the bigger picture.

Mercury in the Twelfth House represents a strong mental connection between your inner awareness and the deep and nebulous realms of magical inner worlds. You have a refined and visionary mentality. With this placement, you are likely to be poetic in the expression of your thoughts and feelings, and you may possess musical ability as well. You are fascinated by the unknowable mysteries of your own inner world, and you are inclined to search to the depths in order to understand yourself. Mundane reality doesn't interest you. You may avoid dealing with it by being evasive or vague in your communication with others, or by daydreaming, or by falling prey to a form of self-deception. You also may have issues of whose thoughts you are responding to, yours or another's. You may have difficulty in communicating the results of your inner explorations with others. However, once you

have sorted through your most awesome and perhaps even fearsome inner experiences, you are better able to connect with those who find a similar numinous connection with the cosmos.

## The ruler of your Rising Sign is Venus in Scorpio (7° Sco 10')

*The ruler of the rising sign is characteristic of your outer persona:*

Venus in Scorpio gives a fervent and intense love nature that has the possibility of being obsessive or self-involved at times. This placement may prove difficult for you, because the intense passions of Scorpio can be more than the milder love energy of Venus is ready for. You are sensual and passionate in relationship, and tend to relate to even casual contacts on a deeper and more personal level. For you, there is no such thing as a superficial contact with others. You also may feel a basic relationship insecurity that drives you to be possessive or even jealous at times. You may appear friendly on the surface while acting selfishly at another more hidden level of your personality. You benefit from curbing the obsessive expression of your will. Your challenge is the transformation of your deep and all-consuming passion into a more open and caring relationship energy.

Venus in the Second House represents a deeply felt connection within you between artistic conception and material form. You have a talent for artistic expression that

manifests in a practical way, for example with an interest in interior design or gardening, or perhaps in its full-on manifestation in the field of the visual or plastic arts. You may also display a fondness for the material things of life, or for their medium of exchange, money and finance. Material things ultimately mean more to you than what they are worth, and are valued for their intrinsic beauty. You likely have a well-developed sense of what you value and an unerring moral compass. It may be right for someone else, but if it's not right for you, you won't have any part of it. You possess an earthy and practical love nature, very ardent and nurturing. This is a powerful placement for Venus, and your emotions are strong and long-lasting. You will always have an abiding sense of enjoyment from music and the arts.

## Venus in strong sextile (within 0.8 degrees) with Saturn

*The planetary energies flow together, open into new possibilities, new connections.*

This aspect gives a personality with a deepening and concentration in the area of interpersonal relationships. You are sensitive and have a strong sense of duty. You are likely to be loyal, cautious and reserved. You do not involve yourself quickly in relations with others, having a judicious sense of the proper timing of such activities. You also make an excellent businessperson, as you are possessed of good judgment, diplomacy and

tact, and are outer directed and self-reliant. You may feel a sense of isolation and loneliness in your life, or a tendency to substitute material rewards for love and caring. You could also have fears of rejection concerning romantic contacts. Yet you have also the opportunity to rise above these circumstances in concentrated effort over time. By being open to the path of relationship you can move toward inner integration and balance, toward relationship more fully explored and felt, based on a renewed self-confidence born of actual experience and mutual understanding.

### Venus in strong opposition (within 2.1 degrees) with Chiron

*The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.*

This combination gives a personality that experiences difficulties with relationships. You are likely to have had painful experiences surrounding marriage and intimate partnerships, but there are also great rewards to be gained in this area. You are drawn to relationship at the same time that you fear it, so that you may also have a strong focus on forming close emotional attachments. You may have had early childhood experiences that made it hard to accept the love of others in your adult life. With these distractions, you also may strongly desire to help other people, and yet be unable to give them the full

benefit of your higher self. It is good to make the effort to connect yourself consciously with any painful events that may be buried in your unconscious, so that these will no longer have so much power over you. Once you have begun to integrate these painful feelings consciously, and shed the baggage of earlier frustrations, you can be a more fully participating partner to others, and be more of help to them as well.

### Mercury in sextile (within 2.4 degrees) with Venus

*The planetary energies flow together, open into new possibilities, new connections.*

This aspect gives a charming manner and an idealistic philosophy. You are friendly and sociable, and lean toward the beautiful and artistic side of life. You have artistic abilities and a youthful attitude, and tend to like young people. You like to dress attractively, although not necessarily expensively, and are likely to be cheerful and optimistic. You also usually have a pleasant speaking or singing voice, and express yourself well in speech or writing. You can be very persuasive in a quiet way.

### Venus in square (within 5.3 degrees) with Jupiter

*The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.*

This aspect gives a graceful and refined nature. You are naturally attractive, although you should beware of a tendency toward vanity or idleness. You are restless and like an element of change and adventure. You have an appreciation or talent for literature and the arts, and also work well in fields such as the law, or other work with the public. You should beware of being too easily influenced by others.

## Venus in trine (within 4.1 degrees) with Midheaven

*The planetary energies flow smoothly; the connection is easy and beneficial.*

This aspect gives a caring and aesthetically motivated personality. You are friendly and social, and consistently strive for harmony in your dealings with other people. With the beauty and grace of Venus affecting your public life, you are ideally suited for a career in diplomacy or the arts, or some other elegant and graceful profession, such as interior decorating. You work well with others, and do better to establish yourself in a business partnership rather than being employed on your own.

## Other Natal Planets

**Mars in Libra (27° Lib 09')**  
**Mars in the Second House**

Mars in the Second House (or sign) gives a persistent and patient nature. You can be extremely stubborn. You can also be jealous and possessive. You value money and other forms of security. You possess an enthusiasm for the pursuit of sensual pleasures. You are likely to be an ardent and loyal lover. You enjoy the good things of life. You may find that you have a desire for luxuries, but lack the conservative attitude toward finances that would help to secure them. If Mars is afflicted in your chart by planetary aspect, you may need to work through pride and acquisitiveness in your nature, or there could be problems with possessiveness, or even resentments towards others. You have an artistic flair to your nature, and function well in the realm of the material and tangible world, with the stamina required to get what you want out of life. You benefit from cultivating an attitude of sharing.

Mars in Libra (or the seventh house) gives a sensitive and emotionally impressionable nature with an inclination to get very involved with other people. You are likely to have great charm and poise, and an ongoing attraction to love and romance. You can be a persuasive talker, and enjoy getting your own way, although you also are truly committed to making sure all parties in a dispute receive just and fair treatment, and will go out of your way to make sure that they get it. You are potentially a rash and ardent lover, and you may marry early. You are likely to seek an active partner, one who will match your own

fiery independence that is a part of your basic nature you may not always show. You might need to work through quarreling with others as a way of standing up to being overly influenced by them, and benefit from exploring a greater degree of self-reliance. You also may be attracted to the idea of partnerships generally, as a way of life. You profit from cultivating moderation and objectivity in your dealings with others.

## Saturn in Virgo (6° Vir 22') Saturn in the Twelfth House

Saturn in the Twelfth House (or sign) gives a deepening and concentration, or blockage, with regard to your connection to spiritual unity with All That Is. You have a serious and self-conscious personality. You can be moody and introspective, and are likely to be compassionate and sympathetic to the problems of others. You may at times feel that life is too hard, or that it is beyond your conscious control. You may experience a sense of imprisonment, either real or imagined, or perhaps a strong sense of guilt, which may be generalized rather than specific. You tend to withdraw from the world, or in some way give up control. Or you may overcompensate by trying too hard to achieve control. Your true path lies in soul-level self-sacrifice rather than in the more mundane life of worldly events. You possess, in a very concentrated form, the urge for spiritual evolution that is present in all of us, and which actualizes when you can detach

from the personal self and surrender to a mystical union with all of life.

The following applies to your generation as a whole as well as to you personally:

Saturn in Virgo (or the sixth house) gives an orderly and analytic mind and a deepening and concentrating, or blockage, with regard to your ability to discriminate and think critically. You are serious-minded and make an excellent worker, perhaps in a subordinate capacity. You do not shrink from hard work, and are capable of putting extra effort into completing a task you have set for yourself. You are good at handling details, but you may have tendency to worry over inconsequential or display an irritable disposition. You need to lighten up. You may experience difficulties in life due to being overly critical, and there is also danger of nervous disorder with this position of Saturn. You may tend to be overly concerned about details of your outer life as a way of compensating for a lack of organization inwardly, and an inner anxiety over physical or mental disintegration. Your lesson is to strive to bring your inner and outer life into harmony by conscious effort in your search for the Self and its movement toward wholeness and integration.

## Pluto in Libra (15° Lib 39') Pluto in the First House

Pluto in the First House (or sign) gives you a tremendous drive to transform yourself as you go through life. You have a powerful personality, and a charismatic way about you that others respect. You may actually appear to be timid or unsure of yourself on the surface, but you have the potential to suddenly burst out in anger due to repressed emotions finally exploding. You are also apt to sweep all aspects of your former life before you in a sudden change that it seems simply must come. You may feel insecure or afraid or perhaps jealous of others at times, and may compensate by being extremely forceful. You can also be compulsive, even obsessive, in achieving your will. You have the power to really get things done, and this power can be used either to bolster your own ego or else for the good of all concerned. Your challenge is movement away from feelings of insecurity and resulting separateness and loneliness, toward an acceptance of your own and other's needs and opinions in order to generate a new and better sense of self. In your most positive manifestation, you possess a dedication to higher ideals and a willingness to be a channel for healing yourself and society.

The following applies to your generation as a whole as well as to you personally:

Pluto in Libra (or the seventh house) gives you a focus on forming close emotional attachments. You may have difficulties in marriage and partnerships; but there are also

great rewards to be gained in this area. You may feel a compulsion to be liked by others. Conversely, you can also become involved in power struggles with partners. You have a depth of passion within you that isn't obvious or recognized, and you may seek to project this power drive onto a relationship partner, rather than directly own up to it. You may therefore find yourself in relationship with dark or manipulative personality types, who may exhibit openly the tendencies you have yourself at a more hidden level. You are likely to go through many changes in your relationship dynamic, as you come to understand more fully your inner process. You may exhibit strong attractions toward close involvement with another person, and simultaneously have fears regarding such attachments. Time and moving through the fires of difficulties may lead you to a painful re-examination of your goals in these areas. Wisdom is required in the handling of close relationships in order to transform the partnership energy into a growing and conscious act of sharing, and to find your own inner strength independent of others around you.

## Chiron in Taurus (9° Tau 17'R) Chiron in the Eighth House

Chiron in the Eighth House (or sign) represents issues with one's vital force to transform and to regenerate. With this placement you have a strong compulsion for intimate connection with other people that

does not easily find its realization. You are likely to have been wounded in your sexuality in some fashion, possibly through early experiences that may even include abuse, either physical or emotional. As a consequence, being close to other people becomes both desired and painful. You may hold off the prospect of closeness with others with some carefully engineered defenses, such as retreating from expressing your true feelings by means of clever Dylanesque obfuscation, or perhaps by using other people before they have a chance to use you. If you do retreat into cleverness and mental gymnastics rather than risk staying with your actual emotion, you leave these feelings unexpressed, and continue a process of being out of touch not only with the intimate other, but with the deeper part of yourself as well. Your journey of discovery of your true emotions, the poignant and vital basis of your inner life, is ultimately the most important one for you, and provides rich rewards as you begin to consciously experience these inner depths of your being, over a period of time. In this journey you will re-connect to your own long buried emotions, and through this process to others as well. As you begin to find yourself and your power, and are truly able to work with other people, you may be able to provide a sense of hope to them in their own individual journeys as well, through the increased consciousness you have gained.

The following applies to your generation as a whole as well as to you personally:

Chiron in Taurus (or the Second House) represents issues with one's vital force to attain sustenance and possess resources. With this placement of Chiron you are challenged by physical resources, or perhaps spiritual resources, because the physical often reflects the spiritual. You may be one who has seen everything taken away at one time or another, or you may have risen above challenging circumstances materially to a better economic standard than your upbringing conditioned you to expect. Either way, you may demonstrate a painful attitude toward material well-being. Perhaps you have a fear of possessions dominating your life. Where others are able to count on their resources, either materially, or physically, or within their own psyche, and trust that they will have whatever it is that they need, you always find yourself suspicious that it will not last. Even if what you have is more than adequate by some standards, it seems somehow not enough to satisfy you. You may dream of giving everything up, and moving to the country. These feelings may also spill over into deep issues regarding your core values, that which defines you in terms of what you choose to support and give credence to in the world. You may feel at sea in this area, and not on stable ground, and perhaps be envious of other people who seem more sure of what they do and don't find attractive. These ambivalent feelings toward material possessions and your values may find their roots in experiences from early childhood, in

which you were criticized or otherwise had painful experiences around what you wanted for yourself, independently from the expectations of your parents or other significant formative persons in your early life. Sometimes these issues are so painful that it is easier not to deal with them directly, and you may find that working with other people's material security becomes a focus of your professional life. In this way, you can work on your issues in safety, rather than confront potentially painful realizations buried in the depths of your psyche. But getting more in touch with these deep and partially repressed feelings is of ultimate importance for you, as your consciousness evolves. When you have confronted those parts of yourself that are painful and scary, and begun to integrate the feelings that you have buried away, you are more in charge of your own ship and the course you take through life, and are better able to help others with their issues as well.

## N Node in Virgo (26° Vir 45'R) N Node in the Twelfth House

Lunar North Node in the Twelfth House (or sign). South Node in the sixth house or sign. This placement gives you a personality with a focus on spiritual rather than worldly concerns. Although the practical matters of everyday life come easily to you, you do not find your true happiness in the pursuit of mundane affairs, but seek constantly to expand your horizons mentally and spiritually

to a larger and more inclusive context. This may be difficult, for the pull of everyday life is very strong in you, and in many ways it is what you do best. In the past, or in previous lifetimes, you may have made much of refining your abilities in the practical world. At that time you dealt mainly with issues of personal health or the welfare of others in small but important ways. Now, in this lifetime, your focus gradually shifts to a higher plane of activity. You find your mission not so much in day-to-day routine, but in sacrificing yourself to a higher purpose, to advancing beyond the material world, perhaps with a disregard for your own well being. By giving up your personal ego-involvement in your actions, you are learning how to help others with true compassion. You find yourself going deep within to bring forth a renewed understanding of how to serve others, as you become an exemplar for a more spiritually based society.

Lunar North Node in Virgo (or the sixth house). South Node in the twelfth house or sign. This placement gives a personality with a great desire to be of service to other people. In the past, or in past lives, you were dreamy and unfocused, and paid little attention to detail. You were in the process of connecting to your higher self, journeying back into the cosmic realms within your own mind. Now your focus must shift to the details of daily life, in a constant effort to improve self, to serve self and others, and to remain alert to the myriad mundane details of life that do not

leave much time for day dreaming. This is a difficult transition to make, but necessary if you are to fulfill your destiny, this time around. As your life unfolds, you may find that issues of health may come up for you, in order for you to work through them. You may possibly be called to care for another whose illness will be a test of your patience and your commitment to service. Since you feel a close kinship to the spiritual world, dealing with every-day details sometimes may seem boring and unsatisfying. As you work through these challenges, though, you come closer and closer to an understanding of how dealing with every-day issues really does connect you with the world of Spirit, still operating at the core of your being.

*The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.*

These two planetary energies, Jupiter and Chiron, both have a strong spiritual component, but operate in different ways. With Jupiter's optimism in support of Chiron's tendency for pain and suffering as a way toward the light, although distressing circumstances may arise, you are able to eventually rise above them, buoyed up by a

strong streak of faith in the ultimate beneficence of Spirit. You have an abiding interest in matters of religion and philosophy, although this is likely to represent your own style of spiritual involvement rather than any standard form of spiritual institutions.
